ACCADEMIA KOEFIA
INTERNAZIONALE D'ALTA MODA E D'ARTE DEL COSTUME

KOEFIA
S.r.l.

"The Digital Twin of Couture."

Using **CLO3D** software, it is possible to "sew" a garment and "dress" a 3D Avatar (which can be modified and customised), create the pattern and correct its defects until the final result can be simulated through photorealistic images or videos (virtual fashion shows).

Target participants

- Fashion Designers / Pattern Makers
- Professionals in fashion, clothing and accessories companies
- Consultants / Freelancers

Many companies are changing their production process by creating virtual prototypes and simulating the final result. Acquiring cutting-edge skills in the field of digital design increases and strengthens employment prospects.

You can learn to

- Create your garment or accessory in 3D.
- Manage and modify your avatar.
- Create photorealistic images and videos.
- Create your entire digital collection.
